**Subject: Residency in Population Medicine**

Mississippi State University, College of Veterinary Medicine, Department of Pathobiology and Population Medicine, is soliciting applications for a 3-year residency in Population Medicine, starting July 1, 2016.

The 3-year residency will consist of didactic and clinical training designed to achieve specialty certification by the American College of Veterinary Preventive Medicine. Residents are expected to teach in the professional curriculum, participate in applied population medicine research, lead and publish the results of research projects, conduct field disease outbreak investigations, and participate in extension outreach activities. In particular, the resident will contribute to teaching in the College of Veterinary Medicine's 3<sup>rd</sup> year clinical rotation in population medicine. With a mentor, the resident will conduct applied research and clinical activities to improve the health and well-being of Mississippi's many animal populations, including animal shelters, cow-calf farms, cattle stocker operations, swine farms, catfish and other aquaculture production systems, poultry farms and wildlife. It is expected that the resident pursue and complete a Master's degree.

Qualifications: Candidates must have a DVM or equivalent degree from an AVMA-accredited college of veterinary medicine.

Desired qualifications include at least one year of veterinary practice experience.

All applicants must apply online at [www.jobs.msstate.edu](http://www.jobs.msstate.edu). Qualified applicants are invited to submit letter of application, resume and 3 references to Dr. David Smith, P.O. Box 6100, Mississippi State, MS 39762. Selected candidate will be expected to supply official transcripts of all degrees at time of hire.

The complete position description can be found at:
