

NEW DRUG LAWS?

What does this mean for cattle producers?

What do the new laws mean?

Select antibiotics will no longer be available over-the-counter (OTC). They must be prescribed by a licensed veterinarian to purchase.

Why are the laws changing?

Several antibiotics commonly used in cattle production are also used in human medicine. The goal is to prevent overuse and/or misuse of antibiotics, which can lead to antibiotic resistance.

What do I need to do to prepare for the upcoming

Develop a veterinarian-client-patient relationship (VCPR) with your veterinarian if you have not already done so.

When do these changes go into effect?

June 11, 2023! Read more about the laws and prepare yourself for the changes.
